

# Welding curtains

## Highest quality in self-extinguishing material

Three colour types are available, all three can be provided as standard curtains as well as strip curtains. The self-extinguishing material gives a good protection against dangerous welding radiation.

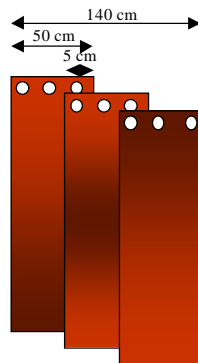

The curtains are equipped with press-studs for easy, strong fastening and are folded at the top and the bottom to withstand tough use.

The strip curtain enables people and material to pass through even when it is closed. All approved according to prEN1598 which allows a maximum risk factor of 1.

Also available, a 50-m roll of material for own manufacturing of strip curtain, this is delivered in a fourth lighter red colour.

Mounting rings, metal and PVC.

### Mounting of strip curtains

Item no: 0700 008 001, 0700 008 002, 0700 008 003. All includes 3 pieces of strips. Mounted together the total width is 140 cm with a 5-cm overlap between each strip. 7 pieces of rings are needed for both the strip and the standard curtains. Included at delivery.

Description	Risk factor	Dimension	Item number
Welding curtain, dark red	< 0,55	1,8x1,4 m	0700 008 004
Welding curtain, green transparent	< 0,1	1,8x1,4 m	0700 008 005
Welding curtain, dark green none transparent	< 0,1	1,8x1,4 m	0700 008 006
Welding strip curtain, dark red	< 0,55	1,8x1,4 m	0700 008 001
Welding strip curtain, green transparent	< 0,1	1,8x1,4 m	0700 008 002
Welding strip curtain, dark green none transparent	< 0,1	1,8x1,4 m	0700 008 003
Mobile welding frame, without wheel, dark red curtain	< 0,55	2,0x1,4 m	0000 595 313
Mobile welding frame, without wheel, dark red curtain	< 0,55	2,0x2,0 m	0000 595 315
PVC rings, 7 pcs. for welding curtains			0700 008 007
Metal rings, 7 pcs. for welding curtains			0700 008 008
Welding strip curtain, roll of 50 meter, red	3	300x2 m	0700 008 013
